

Extended Care 2020-2021

Masks

While inside and not eating, all students in K-8 attending Extended Care will be expected to follow the same guidelines of wearing a mask as the school. PreK does not need to wear masks.

Morning extended Care

Students will enter the library doors and go to the art room or the library for Extended Care.

After School care

The students will be gathered in cohorts on the playground being separated by grades PreK, K-1, 2-3, 4-8 and each cohort will be supervised by teachers on a 15:1 ratio (Prek will be 12:1). When the weather is nice, the students will be outside so they do not have to wear a mask. If they are inside, the students will be in the parish hall. Students in grades 4-8 will be able to utilize homework room in the multipurpose room.

Picking up your children

When picking up students from Extended Care, text the extended care phone number, 402-641-6210 and text which children you are going to pick up. An extended care worker will walk your child to the front lot and you will not have to get out of your car.
