

COVID at Martyrs 2021-22

- ❖ We want to make the year as close to normal as possible.
- ❖ With masking, we are able to keep from having to take a lot of restrictions.
- ❖ Students may bring translucent water bottles, but there will also be drinking fountains available this year.
- ❖ Lunch room is the only place where we can never mask. Therefore, we will use the same dividers we did last year, but we are going back to a normal schedule for recesses and such.
- ❖ Students do not need to cohort like they did last there. This will allow all students who are in the same grade to be together rather than having to stay in their A and B sections.
- ❖ Students will enter and exit the front doors of the school rather than using multiple entrances.
- ❖ There will be mask breaks given frequently. Teachers will allow breaks in the classrooms and take breaks outside if weather and time permits.
- ❖ We pray that as the year goes on, the Delta variant will subside and we can have a normal lifestyle as we were able to have over the summer. I know we all wanted this gone... I promise, I did. But a little longer and hopefully we will see the improvements necessary so all parents feel safe sending their children to our school without a mask. Please continue to pray for unity as we navigate this.

I can tell this is working; you are all in my prayers.

Sr. Janelle
